WEEKLY ACTIVITIES AND STATUS REPORT FOR THE DD/ICS--29 August 1984

CIPC Organizational Activities

- During the week we have been subjecting the CBW Study to an extensive surgical process. The report has been completely reformatted and the Key Judgements and Recommendations have been sharpened. The body of the study has also been reformatted extensively.
  - With these revisions, the tone of the study is less threatening than it was previously.
  - However, there is still some finetuning to be done--the paragraphs need to be classified, and it needs a good editorial and substantive review to ensure consistency, etc.
  - The above process is underway and should be completed by the end of the week.
  - Additionally, [ ] will be visiting us today and will be reviewing the study. 25X1
  - We will also instruct [ ] to start developing the TOR for the new subcommittee. [ ] plans to meet soon with the Chairman of the other Community CBW Working Group in order to gain their support and participation in the CIPC subcommittee. 25X1
